

Medium-size Cities Integrated Urban Development Project

Additional Financing

2021 - PRESENT

World Bank
Uzbekistan

NATURE BASED SOLUTIONS

urban green spaces

The project will deliver road rehabilitation and new road works and pavements using weather resistant paving material to withstand extreme weather events, introducing the use of green and nature-based infrastructure to mitigate floods and, when necessary, constructing wider drains and culverts to accommodate heavy precipitation, undertaking slope stabilization to protect against climate risks.

INTERVENTION

Green

HAZARD

urban flooding

SCALE

Regional

RISK REDUCTION BENEFITS

reduced loss of transport infrastructure
