

N'Djamena Urban Resilience Project

2023 - 2029

World Bank

Chad

NATURE BASED SOLUTIONS

urban green spaces, watershed management

The N'Djamena Urban Resilience Project aims to reduce flood risk and strengthen climate-resilient urban planning and flood-related services in N'Djamena. The project implements green and gray infrastructure measures, including rain gardens, green corridors, and rehabilitation of urban wetlands to mitigate flood risks and enhance urban resilience. Key components focus on flood protection, climate-resilient urban planning, and community disaster preparedness.
