

RESILAND CA+ Program: Tajikistan Resilient Landscape Restoration Project

2022 - 2027

World Bank
Tajikistan

NATURE BASED SOLUTIONS

forests, grassland and other vegetation

The RESILAND CA+ Program: Tajikistan Resilient Landscape Restoration Project aims to increase the area under sustainable landscape management in selected locations in Tajikistan and strengthen collaboration with Central Asian countries on transboundary restoration. The project focuses on restoring degraded forests and pastures to enhance ecosystem resilience and support sustainable livelihoods.
