

RESILAND CA+ Program: Uzbekistan Resilient Landscapes Restoration Project

2022 - 2029

World Bank

Uzbekistan

NATURE BASED SOLUTIONS

forests, grassland and other vegetation

The RESILAND CA+ Program: Uzbekistan Resilient Landscapes Restoration Project aims to increase the area under sustainable landscape management in Uzbekistan and enhance regional collaboration on transboundary restoration. Key activities include tree-based landscape restoration, strengthening institutions and policies, enhancing protected areas and nature-based tourism, and promoting community-based forest management.
