

West Africa Coastal Areas Resilience Investment Project AF BN-TG

2018 - 2026

World Bank

Western Africa (Sao Tome and Principe, Benin, Cote d'Ivoire, Mauritania, Togo, Senegal)

NATURE BASED SOLUTIONS

coastal wetlands (excluding mangroves), rivers & floodplains

This project strengthens resilience for targeted communities and coastal areas in Western Africa by enhancing regional integration and institutional frameworks for coastal management. It finances investments to mitigate erosion, reduce flood risks, manage pollution, and promote climate-resilient development while supporting coordinated national and regional project implementation.
