

# Yangtze River Protection and Ecological Restoration Program for Results (Hubei)

2023 - 2029

**World Bank**  
China

---

## NATURE BASED SOLUTIONS

watershed management

This program aims to improve institutional coordination, ecological restoration, and water quality management along the Yangtze River Basin in Hubei Province. It includes ecosystem restoration, sustainable agriculture, and waste management initiatives to support green development and protect water resources, leveraging multi-level government and private sector financing.
