

# Bolivia Urban Resilience

2020 - PRESENT

**World Bank**

Bolivia

---

## NATURE BASED SOLUTIONS

urban green spaces, rivers & floodplains

The project is aiming to increase the resilience of two urban areas. This will include green spaces along the Pirai Metropolitan River Park, the development of an integral management plan for the park, and other green buffers along side the Irpavi and orkohauira rivers to prevent flooding and ensure slope stabilization.
