

Turkey Resilient Landscape Integration Project (TULIP)

2021 - PRESENT

World Bank
Turkey

NATURE BASED SOLUTIONS

forests, rivers & floodplains, other, seagrass, sustainable management, ponds, lakes, small water bodies, watershed management, indirect non-structural measures

Investments will include a variety of green infrastructure measures, sustainable and climate-smart agricultural practices, and livelihoods diversification. Green infrastructure will be designed in conjunction with gray infrastructure to optimize the functionality, cost-effectiveness, and resilience of the integrated natural and built system.
