

# Lower Shire Valley Landscape Project

2018 - 2024

**World Bank**

Malawi

---

## NATURE BASED SOLUTIONS

watershed management, grassland and other vegetation, forests, inland wetlands

The Shire Valley Transformation Program aims to increase agricultural productivity and commercialization for targeted households in the Shire Valley and to improve the sustainable management and utilization of natural resources. The project development objectives (PDO) are to provide access to reliable gravity-fed irrigation and drainage services, secure land tenure for smallholder farmers, and strengthen management of wetlands and protected areas. Additionally, the project will develop and improve wetland management.
