

Msimbazi Basin Development Project

2023 - 2028

World Bank

United Republic of Tanzania

NATURE BASED SOLUTIONS

watershed management, urban green spaces

The Msimbazi Basin Development Project aims to strengthen flood resilience and integrated urban development in the Msimbazi River Basin in Dar es Salaam. The project focuses on flood control, urban redevelopment, resettlement of vulnerable communities, institutional strengthening for basin management, and providing rapid response to emergencies. Key activities include hydraulic improvements, erosion control, resilient infrastructure, and watershed management.
