

Northern Congo Agroforestry Project

2022 - 2028

World Bank

Democratic Republic of the Congo

NATURE BASED SOLUTIONS

forests, grassland and other vegetation

The Northern Congo Agroforestry Project aims to strengthen climate-smart agriculture and conservation practices in Community Development Zones in the departments of Sangha and Likouala. The project includes activities to establish tree nurseries, provide seedlings, and promote sustainable forest resource management and agroforestry practices to enhance resilience and biodiversity conservation.
