

Second Habitat and Urban Land Project

2023 - 2029

World Bank

Argentina

NATURE BASED SOLUTIONS

urban green spaces, watershed management

The Second Habitat and Urban Land Project aims to promote formal and planned urban growth in selected cities, improve living conditions in precarious settlements, and enhance disaster response. Investments include Nature-Based Solutions (NBS), native urban forestry, green corridors, and linear parks to reduce flooding, mitigate landslide risks, and improve urban environments.
