

Senegal - Saint-Louis Emergency Recovery and Resilience Project

2018 - 2025

World Bank

Senegal

NATURE BASED SOLUTIONS

coastal wetlands (excluding mangroves), grassland and other vegetation, urban green spaces

The Saint-Louis Emergency Recovery and Resilience Project aims to reduce vulnerability to coastal hazards along the Langue de Barbarie and enhance resilience planning in Saint-Louis. The project includes relocation of populations in high-risk zones, coastal risk management plans, and hybrid coastal protection measures to address erosion and improve safety and urban planning.
