# Sindh Flood Emergency Rehabilitation Project

2023 - 2028

**World Bank** Pakistan

## \_\_\_\_\_

## **NATURE BASED SOLUTIONS**

forests, grassland and other vegetation

The Sindh Flood Emergency Rehabilitation Project aims to rehabilitate critical infrastructure, provide short-term livelihood support, and strengthen Sindh's capacity to manage climate change impacts and natural hazards. The project integrates Nature-Based Solutions (NBS), including wetland restoration, vegetative riverbank protection, and greening initiatives, into hybrid flood risk management strategies.
