

# Stormwater Management and Climate Change Adaptation Project 2

2021 - 2028

**World Bank**  
Senegal

---

## NATURE BASED SOLUTIONS

grassland and other vegetation, inland wetlands

The Stormwater Management and Climate Change Adaptation Project 2 aims to reduce flood risks in peri-urban Dakar and enhance urban flood risk planning and management in selected Senegalese cities. The project integrates climate risk and sustainability into urban planning and management, supports drainage investments, engages communities, and strengthens emergency response capacity.
