

Fiji Social Protection COVID-19 Response and System Development Project

2022 - 2025

World Bank
Fiji

NATURE BASED SOLUTIONS

forests, rivers & floodplains, coastal wetlands (excluding mangroves), mangroves, seagrass, coral reefs

The project aims to mitigate the impact of the COVID-19 crisis on the income of the unemployed and underemployed, and to increase efficiency and adaptability of the social protection system of the Recipient. The project's public works program plans to pay local communities to restore waterways and forests, rehabilitate riverbanks, and plant mangroves, grasses, and seagrass.
